

## Lesson 2 Quiz

1. Intelligence means:

- A) Learning ability
- B) Storage
- C) Printing
- D) Typing

**Answer**

Correct Answer: A

## Lesson 2 Quiz

2. Structured data example:

- A) Images
- B) Tables
- C) Audio
- D) Video

## **Answer**

Correct Answer: B

## Lesson 2 Quiz

3. Unstructured data example:

- A) CSV
- B) Excel
- C) Images
- D) Tables

## **Answer**

Correct Answer: C

## Lesson 2 Quiz

4. Algorithm is:

- A) Hardware
- B) Steps to solve problem
- C) Disk
- D) Network

## **Answer**

Correct Answer: B

## Lesson 2 Quiz

5. AI model is:

- A) Chip
- B) Trained system
- C) Cable
- D) OS

## **Answer**

Correct Answer: B

## Lesson 2 Quiz

6. Output of model:

- A) Feature
- B) Label
- C) Prediction
- D) Data

## **Answer**

Correct Answer: C

## Lesson 2 Quiz

7. AI workflow starts with:

- A) Training
- B) Data collection
- C) Testing
- D) Deployment

## **Answer**

Correct Answer: B

## Lesson 2 Quiz

8. Features are:

- A) Inputs
- B) Outputs
- C) Errors
- D) Logs

**Answer**

Correct Answer: A

## Lesson 2 Quiz

9. Labels are:

- A) Inputs
- B) Outputs
- C) Features
- D) Models

## **Answer**

Correct Answer: B

## Lesson 2 Quiz

10. Accuracy means:

- A) Speed
- B) Correct predictions
- C) Size
- D) Cost

## **Answer**

Correct Answer: B

## Lesson 2 Quiz

11. Dataset is:

- A) Hardware
- B) Collection of data
- C) Software
- D) Cable

## **Answer**

Correct Answer: B

## Lesson 2 Quiz

12. Training data is used for:

- A) Teaching model
- B) Deleting files
- C) Networking
- D) Printing

**Answer**

Correct Answer: A

## Lesson 2 Quiz

13. Testing data is used for:

- A) Evaluation
- B) Storage
- C) Backup
- D) RAM

**Answer**

Correct Answer: A

## Lesson 2 Quiz

14. Prediction means:

- A) Guess by model
- B) Disk space
- C) CPU speed
- D) RAM size

**Answer**

Correct Answer: A

## Lesson 2 Quiz

15. AI lifecycle ends with:

- A) Deployment
- B) BIOS
- C) Formatting
- D) Shutdown

**Answer**

Correct Answer: A
